Summary — I'm a Computer Engineering student who enjoys working with SQL, PL/SQL, Python, and exploring data analytics. I love solving optimizing databases, and collaborating with teams to build scalable, real-world solutions.

Skills

Data Analytics - Python (Pandas, NumPy, Matplotlib), SQL, PL-SQL, Excel (Advanced Formulas, Pivot Tables), Power BI / Tableau.

Languages - Python, SQL. **Tools:** Oracle SQL, Power BI, PyCharm.

Projects

Face Base Attendance System :

- **Python** – Core programming language, OpenCV For real-time face detection and image processing.
- **Pandas** – For managing and storing attendance data, NumPy For numerical operations.
- **MySQL** – For storing attendance records.
- **Tools** – VS Code.

Midea player controller: (Using Hand Gesture)

- Developed a gesture-based media control system using Python, enabling users to play, pause, adjust volume, and navigate media through hand gestures.
- Enabled seamless, contactless control of media applications, enhancing accessibility and user experience.
- Technologies Used: Python, OpenCV, Media pipe, Hand Tracking Module.

Education

SSVPS College Of Engineering Dhule

Bachelor of Technology in Computer Engineering

YOP-2025

HSC from SPDM Collage in Shirpur

percentage: 79.80%

Certifications & Training

- Data Analytics in QSpiders, Wakad, Pune.

Skills And Strengths

- Excellent Communication & Team Collaboration.
- Focused, Adaptable and Detail-Oriented.
- Strong command in SQL, Power BI.
